

Q Gardens – The Perfect Solution For Chrysalis Day Nursery In Northwich Cheshire

Outside play is an essential part of the daily routine at Chrysalis Day Nursery. The outside area is extensive and includes a mini-assault course, a playhouse, a living willow tunnel, climbing equipment, peaceful spaces to sit and think, and exciting and imaginative places to play hide and seek!

An integral part of this play space is the 'Teletubby Hill' which is a grassy mound with a large flowering cherry tree growing up through the centre. The combination of tree roots taking all the moisture from the ground and the constant trampling of little feet, caused the natural grass to become worn, parched and baked rock hard during the summer months.

Q Gardens provided an installation using their Q40 product to transform this much loved feature into one which maintains its lush green colour throughout the year and provides a softer, safer surface for the children.

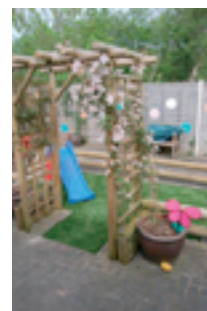

What was once a rather tired and tattered part of Chrysalis Day Nursery's play space, has now become an area which is not only far more pleasing to the eye, but which can be enjoyed and utilised on a daily basis all year round.
